

Imperial Riding School, an Autograph Collection Hotel, whilst evolving from a 19th century military equestrian school to the city's largest cinema, this historic building has always been a defining part of Vienna's cultural landscape. Now, as a grand 342-bedroom hotel, it embodies all the fascinating quirks and contradictions of Vienna. With an intriguing history that encompasses rebellious royals, majestic equestrianism and creative curiosity, the hotel invites visitors to uncover the city's unexpectedly complex character in a building that has long been at the heart of it. From the equestrian-inspired interior touches to the orchard planted in tribute to Emperor Franz Joseph I, every detail has a story to tell.

Location

Located in the artistic Landstraße district, the Imperial Riding School is surrounded by architectural fascinations, from the Schloss Belvedere to the avant-garde Hundertwasser House, and easily accessible from the city centre and Vienna Airport, it is the perfect location for an urban business or leisure retreat.
